

WETLANDS & ECOLOGY, INC.

Technical Specialist

Wetlands & Ecology, Inc. (W&E), a small, woman-owned business incorporated in 1999, is looking for a part-time, as-needed scientist to perform technical work remotely on wide variety of environmental projects. The following are some of the services W&E performs include:

- Ecological risk assessment, predominantly in New Jersey, ranging from simple to complex projects
- Applications for a variety of environmental permits throughout the mid-Atlantic region
- Wetlands and Waters of the US delineations
- Design, permitting and construction of green stormwater infrastructure

To gain a greater understanding of the range of work that W&E performs, we encourage you to visit our website at www.wetlandsandecology.com. The Principals at W&E have more than 30 years of direct work experience in the Environmental Industry

We consider this position ideal for the individual who cannot work full-time, but would still like to pursue challenging, technical work in their chosen field in a professional environment. Our ideal candidate will have a Bachelor's or Master's degree in Biology, Ecology, Chemistry, Geology or Environmental Science with three or more years of work in the Environmental Industry.

W&E is an equal opportunity employer and this position provides compensation commensurate with the experience of the individual that is hired. The position will require occasional field work, primarily in eastern Pennsylvania and New York and throughout New Jersey. W&E provides worker's compensation insurance, but we do not provide benefits (e.g., health insurance, holiday pay, vacation pay, etc.). We expect the candidate to work remotely, meet occasionally to go over project work, and have the necessary hardware and software to complete assignments (Microsoft Office software and adobe).

Interested parties should forward a letter of introduction and curriculum vitae to Derron LaBrake via email (dlabrake@wetlandsandecology.com).
